

Claim Token Guide

Prerequisite

1. *Purchased BITE token during different investment rounds (e.g. Private, seed....etc)*
2. *Access to MetaMask wallet that can access the wallet address provided to us through SAFT or other channel*
3. *Having sufficient ETH in said wallet address for gas fee to transfer to token. (See ethereum gas fee section in the appendix of this document to understand more about the gas fee)*

Steps

1. *Launch the browser and access the Metamask wallet and view wallet address provided to us to receive a BITE token. The address must be the one you provided to us through SAFT or other formal communication channel*
2. *Switch to mainnet and check your ETH balance and ensure you have sufficient ETH to make a ethereum transfer (you need to pay the gas fee to transfer BITE token to your own wallet*
3. *Access this our token vesting dApp using the url here [“https://dragonbite.netlify.app/”](https://dragonbite.netlify.app/)*
4. *Click the “Connect Metamask ” button to connect to authorize the access of our vesting contract using your metamask wallet (you must login metamask with proper Ethereum address if you haven't signed-in.*
5. *To access the token which you can claim upfront, please click the “Upfront Token Claim” button or access our token claim dApp using the url here [“https://dragonbite-upfront-tokens.netlify.app/”](https://dragonbite-upfront-tokens.netlify.app/)*

Vesting Details

100,000.00 BITE / 100,000.00 BITE

Token Contract Address	0x5898...afc1
Vesting Contract Address	0x84E4...0623
Start date	2021/05/21 08:00
End date	2021/05/23 08:00
Total tokens	100,000.00 BITE
Already vested	100,000.00 BITE
Remaining to vest	0.00 BITE
Already claimed	100,000.00 BITE
Available to Claim	0.00 BITE Claim

6. Check how much token you can claim in the field labelled “Available to Claim” field. If you still have a token which you haven’t claimed yet.
7. Click the “Claim” button to trigger the transfer.
8. After you claim the token for the first time, you will need to “Add BITE token to your metamask wallet”:
 - a. Click BITE etherscan link [URL here](#)
 - b. Click the more button on top right of the screen as shown above to show the menu list
 - c. Click the “Add Token to Metamask (web3)” menu selection
 - d. When the confirmation screen appear, click “Add Token” button

This action will edit tokens that are already listed in your wallet, which can be used to phish you. Only approve if you are certain that you mean to change what these tokens represent.

Frequently asked Questions

How many BITE token claims can you perform?

You can perform many BITE Token Claim as long as your token vesting web UI shows that you have some token which you can claim as shown in “Available to Claim” field. Please be reminded that claiming tokens will require consumption of gas fee (in form of ETH) as for using ethereum network.

How much ETH is sufficient for BITE Token Claiming?

It depends on the gas fee per transfer (which changes from time to time) and how many transfers you plan to make. You can check the current gas fee using “Ethereum Gas Tracker” through this [URL](#). When ethereum network activities are low. The ETH required can be 0.001 ETH, but sometimes it can be hundreds of times more if the ethereum network activity is very high. Check the gas price and determine how many claims you want to make will help you to estimate how much ETH you need in your wallet to claim a BITE token.

How can I add BITE Token to MetaMask?

See Step 7 of the token claim procedure

Why Ethereum Charge Gas Fee?

“In short, gas fees help keep the Ethereum network secure. By requiring a fee for every computation executed on the network, we prevent actors from spamming the network. In order to prevent accidental or hostile infinite loops or other computational wastage in

code, each transaction is required to set a limit to how many computational steps of code execution it can use. The fundamental unit of computation is "gas".

How much ETH is sufficient for BITE Token Claiming?

There isn't a model answer for that since ETH gas fee for token transfer (token claim is a transfer process) varies from time to time. **You should consider doing the claim when the gas fee is low.** You can check the gas fee required through [ethereum gas tracker](#). Please note that the screen capture below is taken when the ethereum gas fee is low (several USD). During extreme condition, the price can go up to 50-100 USD which also depends on the current ETH price.
